mednxt
Post-Doctoral Fellowship & Certificate Programs

at National Reference Laboratory (NRL)
Rohini, New Delhi

MedNxt is Dr Lal PathLabs's umbrella program for Post-doctoral Fellowship and certificate courses in specialised areas in the field of pathology.

The training programmes will be run onsite at their state of the art, 85000 sq ft National Reference laboratory, Rohini.

The National Reference Lab offers highly specialised exposure in diagnostics incorporating cutting edge technology and vast test menu in Molecular Diagnostics, Next generation sequencing, Clinical Cytogenomics, FISH, Microarray, Digital Histopathology, Oncopathology, Transplant Immunology, Autoimmunity Diagnostics, Mass Spectrometry, Biochemical Genetics, Renal pathology and Transmission electron microscopy. The facility tests over 35000 samples a day, running close to 90000 tests daily.

The program offers a unique opportunity to learn from the highly experienced faculty and get hands on experience while working with a team of over 60 pathologists and research scientists and nearly 300 laboratory technologists.

The students will also get to experience and learn best in class practices in diagnostics from the lab having Accreditations from the College of American Pathologists (CAP) and the National Board for Accreditation of Laboratories (NABL) for the extensive test menu of over 3000 tests. The In-house R&D unit at the National reference Lab is recognized by DSIR, Ministry of Science & Technology, Government of India.

The National Reference Lab has established a strong legacy of excellence in training Primary DNB Pathology candidates, with four successful batches completing their training. Building on this strong foundation, the MedNxt Fellowship Program was launched to offer advanced, specialised training across diverse fields of pathology. With three successful fellowship batches completed, the fourth batch is now being launched—continuing the commitment to developing specialised expertise, advancing diagnostic capabilities, and shaping the next generation of future-ready pathology professionals.

ABOUT DLPL

Dr Lal PathLabs is India's Leading & Trusted Diagnostics Company

Founded in **1949**

75+ years of Diagnostic Expertise

Established in 1949 by **Late Dr. Major S.K. Lal,** it has over **75+ years** of experience in providing quality healthcare diagnostics. It offers **~5000 tests** and employs more than **4,000** personnel.

It is India's one of the largest Diagnostics chains with **60+ NABL** accredited Labs all over India

We have won many awards over the course of its journey. Some being: -

- **FRANCHISE INDIA EXCELLENCE AWARD** 2009 - 2014
- **INTERNATIONAL BUSINESS COUNCIL AWARDS** 1970 - 1994
- **AWARD FOR SERVICE EXCELLENCE** (Diagnostic centre) for the year 2018 by federation of Indian chambers of commerce & industry
- **BUSINESS TRANSFORMATION AWARD 2022** (COMPETITIVE EDGE)
- **QCI-D.L. SHAH QUALITY AWARDS** 2021 (GOLD AWARD)

2026-27

Renal Pathology and Electron Microscopy Fellowship Program

Why choose this program?

- Gain vital exposure to best practices in Renal Pathology at one of the world's largest and most advanced nephropathology setups.
- Learn and strengthen operational competencies for ISO, NABL and CAP accreditation.

Minimum Eligibility

- MD/DNB in Pathology (degree must be obtained from a recognised institute).

Who is this program for?

- Ideal for mid-career pathologists looking for:
  1. Advanced training in a niche super-speciality.
  2. Career transition to nephropathology practice.

Admission Procedure

Online Registration and profile submission on Registration link

https://www.lalpathlabs.com/mednxt-fellowship-program

Profile evaluation with statement of purpose followed by personal interview of shortlisted candidates

COURSE Duration	COURSE Fees	STIPEND Per Month
12 Months	INR 1,20,000	INR 1,00,000

Evaluation Procedure

The evaluation methodology is at the discretion of the faculty and includes exams, internal evaluations, case log book evaluation, research project completion and performance at the summative examination. A minimum of 75% attendance is a prerequisite for the successful completion of this programme.

Participants will have to secure the minimum pass marks in the respective evaluation components.

mednxt
Post-Doctoral Fellowship & Certificate Programs

COURSE CONTENT

Module 1: Introduction to Renal Anatomy and Histology

Module 2: Introduction to Renal Physiology

Module 3: Laboratory Orientation

- Includes relevant quality control aspects.

Module 4: Familiarisation with Common Lesions

- Familiarisation with common lesions of native and transplant kidneys.

Module 5: Teaching Schedules

- Screening and sign-out of daily cases with assigned faculty on a rotational basis, covering light microscopy, DIF and electron microscopy.
- Presentations at weekly departmental academic meetings (Wednesday), including academic presentations, journal clubs, journal scan, and interesting in-house cases on a multiheader microscope.

Module 6: Academic Activities

- Attend at least one national Renal Pathology/Nephrology conference and present a paper/poster (ISRTP/ISN/ISOT).
- Undertake and complete a short research project with the assigned faculty.

Module 7: Short-Term Postings for In-Depth Exposure to Allied Specialities

- Clinical/hospital posting (Nephrology Department).
- Transplant Immunology.
- Molecular Diagnostics and Cytogenomics.

Program Director

Dr. Alok Sharma

R&D Head and Technical Director
(Renal Pathology and Electron Microscopy)

Dr. Alok Sharma is Director, Nephropathology and Electron Microscopy, and Head, Research & Development at Dr. Lal PathLabs Ltd., New Delhi. He trained in Renal Pathology at the All-India Institute of Medical Sciences (AIIMS), New Delhi, and is a former Visiting Clinician at Mayo Clinic, Rochester, USA.

With extensive clinical and investigative research experience, Dr. Alok Sharma has published over 125 scientific research articles, including landmark work in renal transplantation pathology and glomerular diseases.

He pioneered the establishment of an independent department of Renal Pathology and Transmission Electron Microscopy at Dr. Lal PathLabs, which has grown into a globally recognised centre for renal biopsy diagnostics, processing over 30,000 renal biopsies annually.

He also established South Asia's first Amyloid Typing Laboratory, which has fulfilled a long-standing need for adequate diagnosis and management of patients with Amyloidosis in this part of the world. Recognised for his academic and research contributions, Dr. Alok Sharma has received several national and international awards and delivered over 300 lectures and orations worldwide.

GENERAL GUIDELINES Summary FOR MEDNXT – Post Doctoral Fellowship & Certificate Program

- You will be bound by all rules, regulations, office orders, quality controls, information security procedures, code of conduct and circulars in existence and framed by the company from time to time, which will form a part of your terms of candidature with us.
- You shall keep the Organization informed of your latest postal address and any communication sent to you by the organization on your last known address shall be deemed to have been duly served notwith-standing the fact that you may have changed your address.
